

IT INFRASTRUCTURE

C(N)E-Global Com JV LLC is a tribally-owned 8(a)/Hubzone joint venture delivering extensive expertise to provide both government & commercial entities critical digital infrastructure solutions, support, and comprehensive professional services.

CORE CAPABILITIES

Systems Integration

- Network Design & Deployment
- Software-Defined Networking (SDN)
- Passive Optical Networks (PON)
- Wireless (5G, CBRS, Wi-Fi)
- Audio Visual Solutions
- Distributed Antenna Systems
- Unified Communications
- IoT Systems & Sensors

Critical Infrastructure Protection

- Premises & OSP Structured Cabling
- Risk Management Framework
- Physical Security (Surveillance)
- Cybersecurity & Infrastructure Security
- Protected Distribution Systems
- Physical IT Asset Monitoring
- DoD Microgrid Design/OTCYBER

Professional Services

- A&E Design Engineering
- Data Center Services (Smart Hands)
- IT Audits & Assessment
- Compliance Assurance
- Lifecycle Planning & Management IT
- Program/Project Management
- Information Assurance
- SETA Support

OUR EXPERTISE

KEY CLIENTS

DEPT OF HOMELAND SECURITY (DHS)
DEPT OF DEFENSE (DOD)
DEPT OF AGRICULTURE
DEFENSE INFORMATION SYSTEMS AGENCY
FEDERAL BUREAU OF INVESTIGATION (FBI)

- 5 CONTRACTING OFFICER**
 - Issues RFP to the 8(a) firm
- 6 8(a) FIRM**
 - Submits technical and cost proposal to the Contracting Officer in response to the RFP
- 7 CONTRACTING OFFICER**
 - Performs technical and price analysis
- 8 8(a) FIRM**
 - Negotiates final price and deliverables with the contracting officer
- 9 CONTRACTING AWARD**
 - Contracting Officer assembles contract and forwards to SBA
 - Government Agency, SBA and 8(a) Firm executes contract

Sole Source Set-Aside Contract Value Authority

FAR 19.805 Competitive 8(a); 19.805-1 General

Where an acquisition exceeds the competitive threshold (\$4M), the SBA may accept the requirement for a sole source 8(a) award if the SBA accepts the requirement on behalf of a concern owned by an Indian tribe or Alaska Native Corporation.

Past Performance FAR

FAR 15.305(2)(iii)

Past Performance information is one indicator of an offeror's ability to perform the contract successfully. The solicitation provides offerors an opportunity to identify past or current contracts relevant to the requirement and evaluate problems encountered on the identified contracts and the offeror's corrective actions.

Past Performances

LAN Managed Services - Department of Homeland Security (DHS)

Contract No - FED-33230

Contract Value - \$43.3M

CNE recently completed the design/build of new office spaces to convert an existing space for the new SLOP program. In addition, CNE provided space planning and FF&E to outfit the space for immediate occupancy by the new program personnel, including a flag officer.

FBI Support Services - FBI Finance & Facilities Division (FFD) & IT Branch (ITB)

Contract No - 17-JFBI-II-047-04

Contract Value - \$2.8M

Following the U.S. Army permitting about 1600 acres at Redstone Arsenal in Huntsville, Alabama to the FBI for infrastructure development and build, the FBI aimed to further its mission goals and objectives by leveraging Redstone Arsenal as a key U.S. government (defense and non-defense) research, development, test and evaluation center, and technology hub. To that end, they required full-time, on-site IT subject matter expertise and project management support services to provide project oversight and coordination of other contractors performing the integration and testing of IT infrastructure and services needed to establish connectivity and access for the Redstone site. The systems and services, which include various levels of classified systems, need to successfully integrate users and technology seamlessly and enable the workforce to retain uninterrupted services throughout deployment, while simultaneously capturing the efficiencies afforded by the chosen IT systems.

FBI Support Services - FBI Finance & Facilities Division (FFD) & IT Branch (ITB)

Contract No - 17-JFBI-II-047-04

Contract Value - \$2.8M

Since 1984, the USDA has the responsibility of managing, operating, maintaining, repairing, improving, and securing 4500 buildings throughout the National Capital Region and the U.S. that services more than 100,000 users. This includes their 14-acre Headquarters Complex campus with two buildings consisting of approximately 2.5 million square feet, the 350,000 square-foot USDA-owned George Washington Carver Center (GWCC), the Office of Operations (OO) Material Management Service Center, the three-building 400,000 square foot Patriots Plaza II complex, the 180,000 square foot Sidney R. Yates Building and several other facilities throughout the U.S. A key part of these responsibilities included complying with Secretary of the USDA's One Neighborhood Initiative to move headquarter employees within a nine (9) month timeframe in a way that enabled users to connect and work in their new physical workspace without needing to reconfigure each port.

Standard Information Technology Goods & Services Agreement - Alexandria Renew Enterprises

Contract No - 19-062

Contract Value - \$2.3M

Alexandria Renew Enterprises (AlexRenew) is one of the most advanced, sustainable, and innovative water resource recovery facilities in the United States. As a 35-acre urban campus water treatment facilities plant that serves approximately 19 buildings, AlexRenew cleans over 13 billion gallons of used water annually and reuses the byproducts of its water cleaning process to support the City of Alexandria's growing population. As part of their Capital Improvement Plan and goal of investing in new technology to treat more water, AlexRenew needed to assess their current fiber backbone infrastructure and plan and install new systems to support next-gen Supervisory Control and Data Acquisition (SCADA), Data, Voice, and future emerging technologies such as Wireless Access Points (WAPs), Audio Video (AV), Distributed Antenna System (DAS), and Closed-Circuit Television (CCTV). This included both passive and active networking components to segregate combined legacy systems to the individual SCADA and business applications.
